

What is Treat DAO

TreatDAO is a community developed platform that allows creators to turn their content into non-fungible tokens (NFTs.) NFTs are digital collectibles stored and certified on the blockchain allowing them to be unique and adds extra value to your content.

TreatDAO is an open platform with low fees centered around giving the control back to the creators. “DAO” signifies the business structure of the platform (Decentralized Autonomous Organization) where holders of the \$TREAT token govern over the platform.

Turn your content into NFTs
in just a few clicks

Low fees and no
delayed withdraws

Get paid
instantly on every sale

Lock your content behind
a paywall for subscribers only

Creators are able to mint and sell NFTs in
the TreatDAO Marketplaces
